BRAKING ON RAILROAD SCARCELY LESS DANGEROUS THAN ORDINARY BATTLEFIELD

IN COUNTRY, TRAINMEN ALLEGE, ONE BRAKE-MAN IN 125 IS KILLED AND IN CONNEC-TICUT, ONE IN 82

Interesting Hearing on the Bill to Increase the Number of

Crew Manning Trains of New Haven Road—In Five Years Brotherhood of Trainmen in Connecticut Has Appropriated \$163,350 to Fund for Killed and Disabled. A thrilling tale of the dangers of yet the brakemen in a crew were only

railroad employment was told before the Committee on Railroads in Hartford, on the occasion of the hearing on the bill "to better protect the lives of railroad employes and the traveling public," which has the sanction of the everal organizations of railroad em-The stories of slaughter at this peaceful occupation sounded like accounts of Cuban battlefields.

Some who favored the bill were: J. L. Rowe, general chairman of the Brotherhood of Railroad Trainmen in the New Haven road system, of Bridgeport; E. J. Manion, general chairman of the Order of Railroad Telegraphers for the New Haven system; F. S. Evans, general chairman of the Brotherhood of Locomotive Engineers for the same system. Mr. O'Hern, who is the state legislative representative of the Brotherhood of Railroad Trainmen, is a pupil of P. H. Morrison, past grand master of the brotherhood. Mr. Morrison is now president of the American Employers' and Investors' Association, which has its headquarters at Chica-

General Superintendent William G. Beard of the New Haven system, Su-perintendent B. R. Pollock of the Highland division and Attorney Lu-

pose the bill.

Mr. O'Hern read an extract from a report of the interstate commerce commission. The report said that poor management was a cause of many of

The number of employees killed in the United States annually was 3,680 and in Connecticut the average killed was 55, or above the ratio of the state ccording to area Mr. O'Hern gave stitistics to show that one trainman was killed in the

ed and that one in every 82 trainmen in Connecticut was killed. The show-ing was better in 1908 than in some years preceding because of the de-crease in traffic. Mr. O'Hern said that there was no

moment. What was wanted was safety for brakemen and the public.

Mr. Rowe of Bridgeport, general chairman of the Brotherhood of Trainmen on the New Haven railroad system, told about former opposition of the company to the removal of the old fashioned coupling pins. He supposed that the company would object to the bill for the reason that it would instanted in the company would object to the bill for the reason that it would instanted in the company would object to the bill for the reason that it would instanted in the company would object to the bill for the reason that it would instanted in the company would object to the bill for the reason that it would instanted in the company would object to the bill for the reason that it would instanted in the company would object to the bill for the reason that it would instanted in the company would object to the bill for the reason that it would instanted in the company would object to the bill for the reason that it would instanted in the company was not wise. bill for the reason that it would in-volve expense. In former days loco-motives were small and weak and yet there were three or four brakemen and flagmen in a crew. Now they were larger and more powerful, drawing

two in number. In passenger trains the coaches have vestibules and gates. Mr. Rowe said that a conductor on a freight who was careful of his crev and refused to take chances was liable to suffer in reputation.

Mr. Rowe stated that in five years members of the Brotherhood of Rail-road Trainmen alone in Connecticut had appropriated \$166,350 for a fund for brothers killed or disabled. Some insurance companies refuse to issue policies on railroad men's lives. Mr. Rowe said that an employee

brought suit against a railroad company was dismissed instantly.

It was earnestly asserted by Mr. Rowe that the day had arrived when it was absolutely necessary to increase the number of men on train crews for the sake of the crews' safety and the public safety. He also said that the Company was long in adopting improvements, even those that were for its tenefit. He told of the great length of time the trainmen had used in compelling the employment of safety ap-pliances that have since been of actual pecuniary benefit to the company.

Wm. G. Beard of New Haven, general superintendent of the New Haven road, said that the act did not portray the nature of the bill. Mr. Beard said that every train on the New Haven railroad was properly manned. The company's rules, he said, were intend-ed for the safety of the public and

of the company's property.
"So far," Mr. Beard said, "as the
New Haven railroad is concerned the men who wish to appear before a committee on the bill will not be called to the company's office on account of that appearance." It was untrue that a trainman would be up for criticism for being careful in his work. It was the grossest misstatement which could be made to state that men were morally coerced or intimidated to run into Can-

Mr. Beard showed a statement ountry to every 125 trainmen employtrain accidents in 1908 and said that he had a statement as to the manning of every railroad in Connecticut. The average number of cars per train on the passenger side was four to seven per division. The maximum was from

was not wise.

Mr. O'Hern rose to stand by his statements that the company did intimidate employes. Mr. Rowe backed up his statement by saying that a future minor violation would result in a discharge. He said that there were men who objected to appearing at the

a party of scientists sent out by the University of Chicago and the United States Hydrographic Office.

The first scientist to search for primeval fossils of vegetable life in Japan, an English woman, has returned home with specimens which she as-serts are at least 2,000,000 years old. Wax from the candelilla plant, which grows in great abundance in Mexico, is said to be available for candles, var-nish, shoe polish, talking machine records and as an insulating material.

To save wear and tear of talking machine discs, an Lowa man has pat-ented a magnet to be placed in such a position to take up the particles of steel ground off the point of the needle. Gold mining in Georgia, first at-tempted by the Spanish explorers, who learned from the Indians that nuggets were to be found in the streams, has been carried on continuously since

When a hurricane blows at the rate of 100 miles an hour the air moves with a velocity of \$,800 feet per minute, or 146.6 feet per second, and with a pressure of 49,200 pounds per square foot. An association has been formed in Germany to establish a national chemical laboratory. Prussia has tendered a sit free, and the Federal Government will be asked for substantial

financial assistance.

An investigation by Federal and State experts, covering three years, has resulted in a report that Maine possesses immense resources of peat, of excellent quality for fuel and other purposes.

Careful tests by Canadian scientists show that the great Victoria glacier in Alberta moves about 66 feet a year, the

Alberta moves about 66 feet a year, the summer movement being about half again as rapid as the winter.

All clocks in Russian railroad stations carry four hands, a pair of black ones to denote the time by the meridian of St. Petersburg, the national standard, and two red ones to mark the local time.

MRS. WAKEMAN DIES IN HER 96TH YEAR

Was Widow of Deacon William Webb Wakeman Who Amassed Fortune as Shipping Merchant.

The Funeral This Afternoon Will be Attended by Large Part of Southport's Population.

The funeral of Mrs. Catherine Wake-

man took place this afternoon from her late residence in Southport. The deceased was the widow of the late Deacon William Webb Wakeman who died many years ago. Mrs. Wakeman had almost reached her 96th year when she succumbed to heart failure, superinduced by old age, at a hotel in Hot Springs. Arkansas, last Saturday. Mrs. Wakeman was born in the town of Fairfield and made her home with-Arouses the Powers of Fairfield and induce her horizontal in its limits the greater part of her life. Her husband was a shipping merchant in New York during the period when American commerce was in the ascendency. He amassed a large fortune, of which a goodly por-tion still remains in the estate of his

Mrs. Wakeman was a typical New England woman of the highest class.
She lived a quiet, dignified life of retirement the greater part of which was devoted to others. Her charities were large and practical. Few except the recipients of her bounty had any idea of the extent of her good works. She was on her way north, from a winter passed in south, and had stopped for a few days, at Hot Springs to recuperate, when death overtook

her.
She was a life long member of the Southport Congregational church, of which her husband was deacon for many years. She outlived all her children. The family now consists of five dren. The family now consists of five grandchildren. Charles M. Painter lives in the far west. Miss Elizabeth K. Wakeman lives in New York city Three other grandchildren have made their homes in England for years. They are Ross W. Wakeman. Mrs. Dolby and Mrs. Shaw. The funeral, which took place from the handsome residence of the deceased this afternoon, was attended by a large part of the community, who desired to pay a last tribute of respect of love, to one who had endeared herself to succeeding generations of Southporters, by her helpful and kindly life. helpful and kindly life.
The interment was in the family plot in Oaklawn cemetery.

CROWDS ATTENDING MISSION AT ST. MARY'S CHURCH

The mission which the Paulist Fath ers began last Sunday at St. Mary's church continues despite the rainy weather to attract three large con gregations every day. Although the church seats, nearly a thousand it is necessary to divide the congregation that all may attend. This present week is exclusively for women. Next week will be for the men of the parish. The first service begins at 5 o'clock in the morning. It consists of the mass fol lowed by a sermon on some important moral subject. The service ends at about six o'clock so as not to interfere with the work of the day. There is a like service at 8 in the morning intend-ed for those who cannot attend the 5

o'clock mass.

In the evening the service begins at 7:45. It consists of a short instruction of some fundamental doctrine of the Catholic church. This is followed by the public recitation of the rosary. Then comes the mission sermon and Benediction of the Blessed Sacrament. The Paulist Fathers use congregational The Paulist Fathers use congregational singing during their missions and the neople of St. Mary's sing the new hymns with excellent effect. Confessions begin to-day at 3:30. The mission is conducted by Rev. Peter J. Moran and Rev. Wm. T. Walsh, both of the Paulist Fathers, New York. Non-Catholics as well as Catholics are invited to attend.

Settled Case After Hearing Before Court

Judge Howard J. Curtis in the Su-perfor court, civil side, today heard testimony in the action brought by Burr & Knapp against Louis Blechman involving a dispute over property in Union avenue. Before all of the evi-dence was submitted Chamberlain & Hull for the plaintiffs and Shapiro & Shapiro for the defendants agreed upon a settlement, the defendant agreeing to give up the property at the expiration of 30 days. HANUS AND FEET ITCHED 12 YEARS

Suffered Terribly from Eczenia which Made Hands and Feet Swelf, Peel and Get Raw - Arms Affected, Too - Gave Up Hope of Cure.

USED CUTICURA AND WAS QUICKLY CURED

"I suffered from eczema on my hands, arms and feet for about twelve years, my hands and feet would swell, sweat and itch, then would become callou and get very dry, then peel off and get raw. I tried most every kind of salve and ointment without success, only got temporary relief. As soon as I would leave off using them I would be as bad as ever. I tried several doctors, took arsenic for two years and at last gave up thinking there was a cure for eczema. A friend of mine insisted oh my trying the Cuticura Remedies but, supposing they were the same as other cures' I had tried, I did not give them a trial until I got so bad that I had to do something. I secured a cake of Cuticura Soap, a box of Cuticura Cint ment and a bottle of Cuticura a cake of Cuticura and a bottle of Cuticura Resolvent and by the time they were used I could see a vast improvement and my hands and feet were healed up in no time. I used several bottles of Cuticura Resolvent. This was over a year ago am have had no trouble since. I thinked solvent. This was over a year ago am have had no trouble since. I think-am entirely cured. Charles T. Baue-R.F.D. 65, Volant, Pa., Mar. 11, 1908.
